Cable holder type 80 SV II M20 fork 193.009.005

May 05th, 2024, 12:29

REUTLINGER

DESCRIPTION

Suspension Type 80 SV II M20 horqulla 193.009.005 for steel cable REUTLINGUER of diameter 6-8mm. Maximum load on galvanized steel cables (6mm-190kg / 8mm-330kg). It has a safety nut with a lock on the upper part for locking the steel cable and a 10x20 fork clamp closing device with a through bolt on the lower part for anchoring. Black color Very useful to support large loads with total safety. Suitable solution for the event industry, interior and exterior architecture, scenarios, exhibition stands, etc. It stands out for its ease of mounting height and large load capacity. TÜV Z1A certificate 06 04 14 229 029. The Type 80 SV II suspensors not only meet the requirements of the GS certificates, but also pass the rigorous tests of mandatory compliance of the German Institute for safety and accident prevention. The type 50 hangers of REUTLINGUER are the only ones that bear the BG-PRÜFZERT label, which is granted only after passing demanding and rigorous tests with all conceivable variants of load.
